Back to School Project

Our 2021 Back to
School project for
the LEA Primary
School Durumi
Area in Abuja.

When you look at me, what do you see?

Here's what we see.
**We see the future
of the world.**

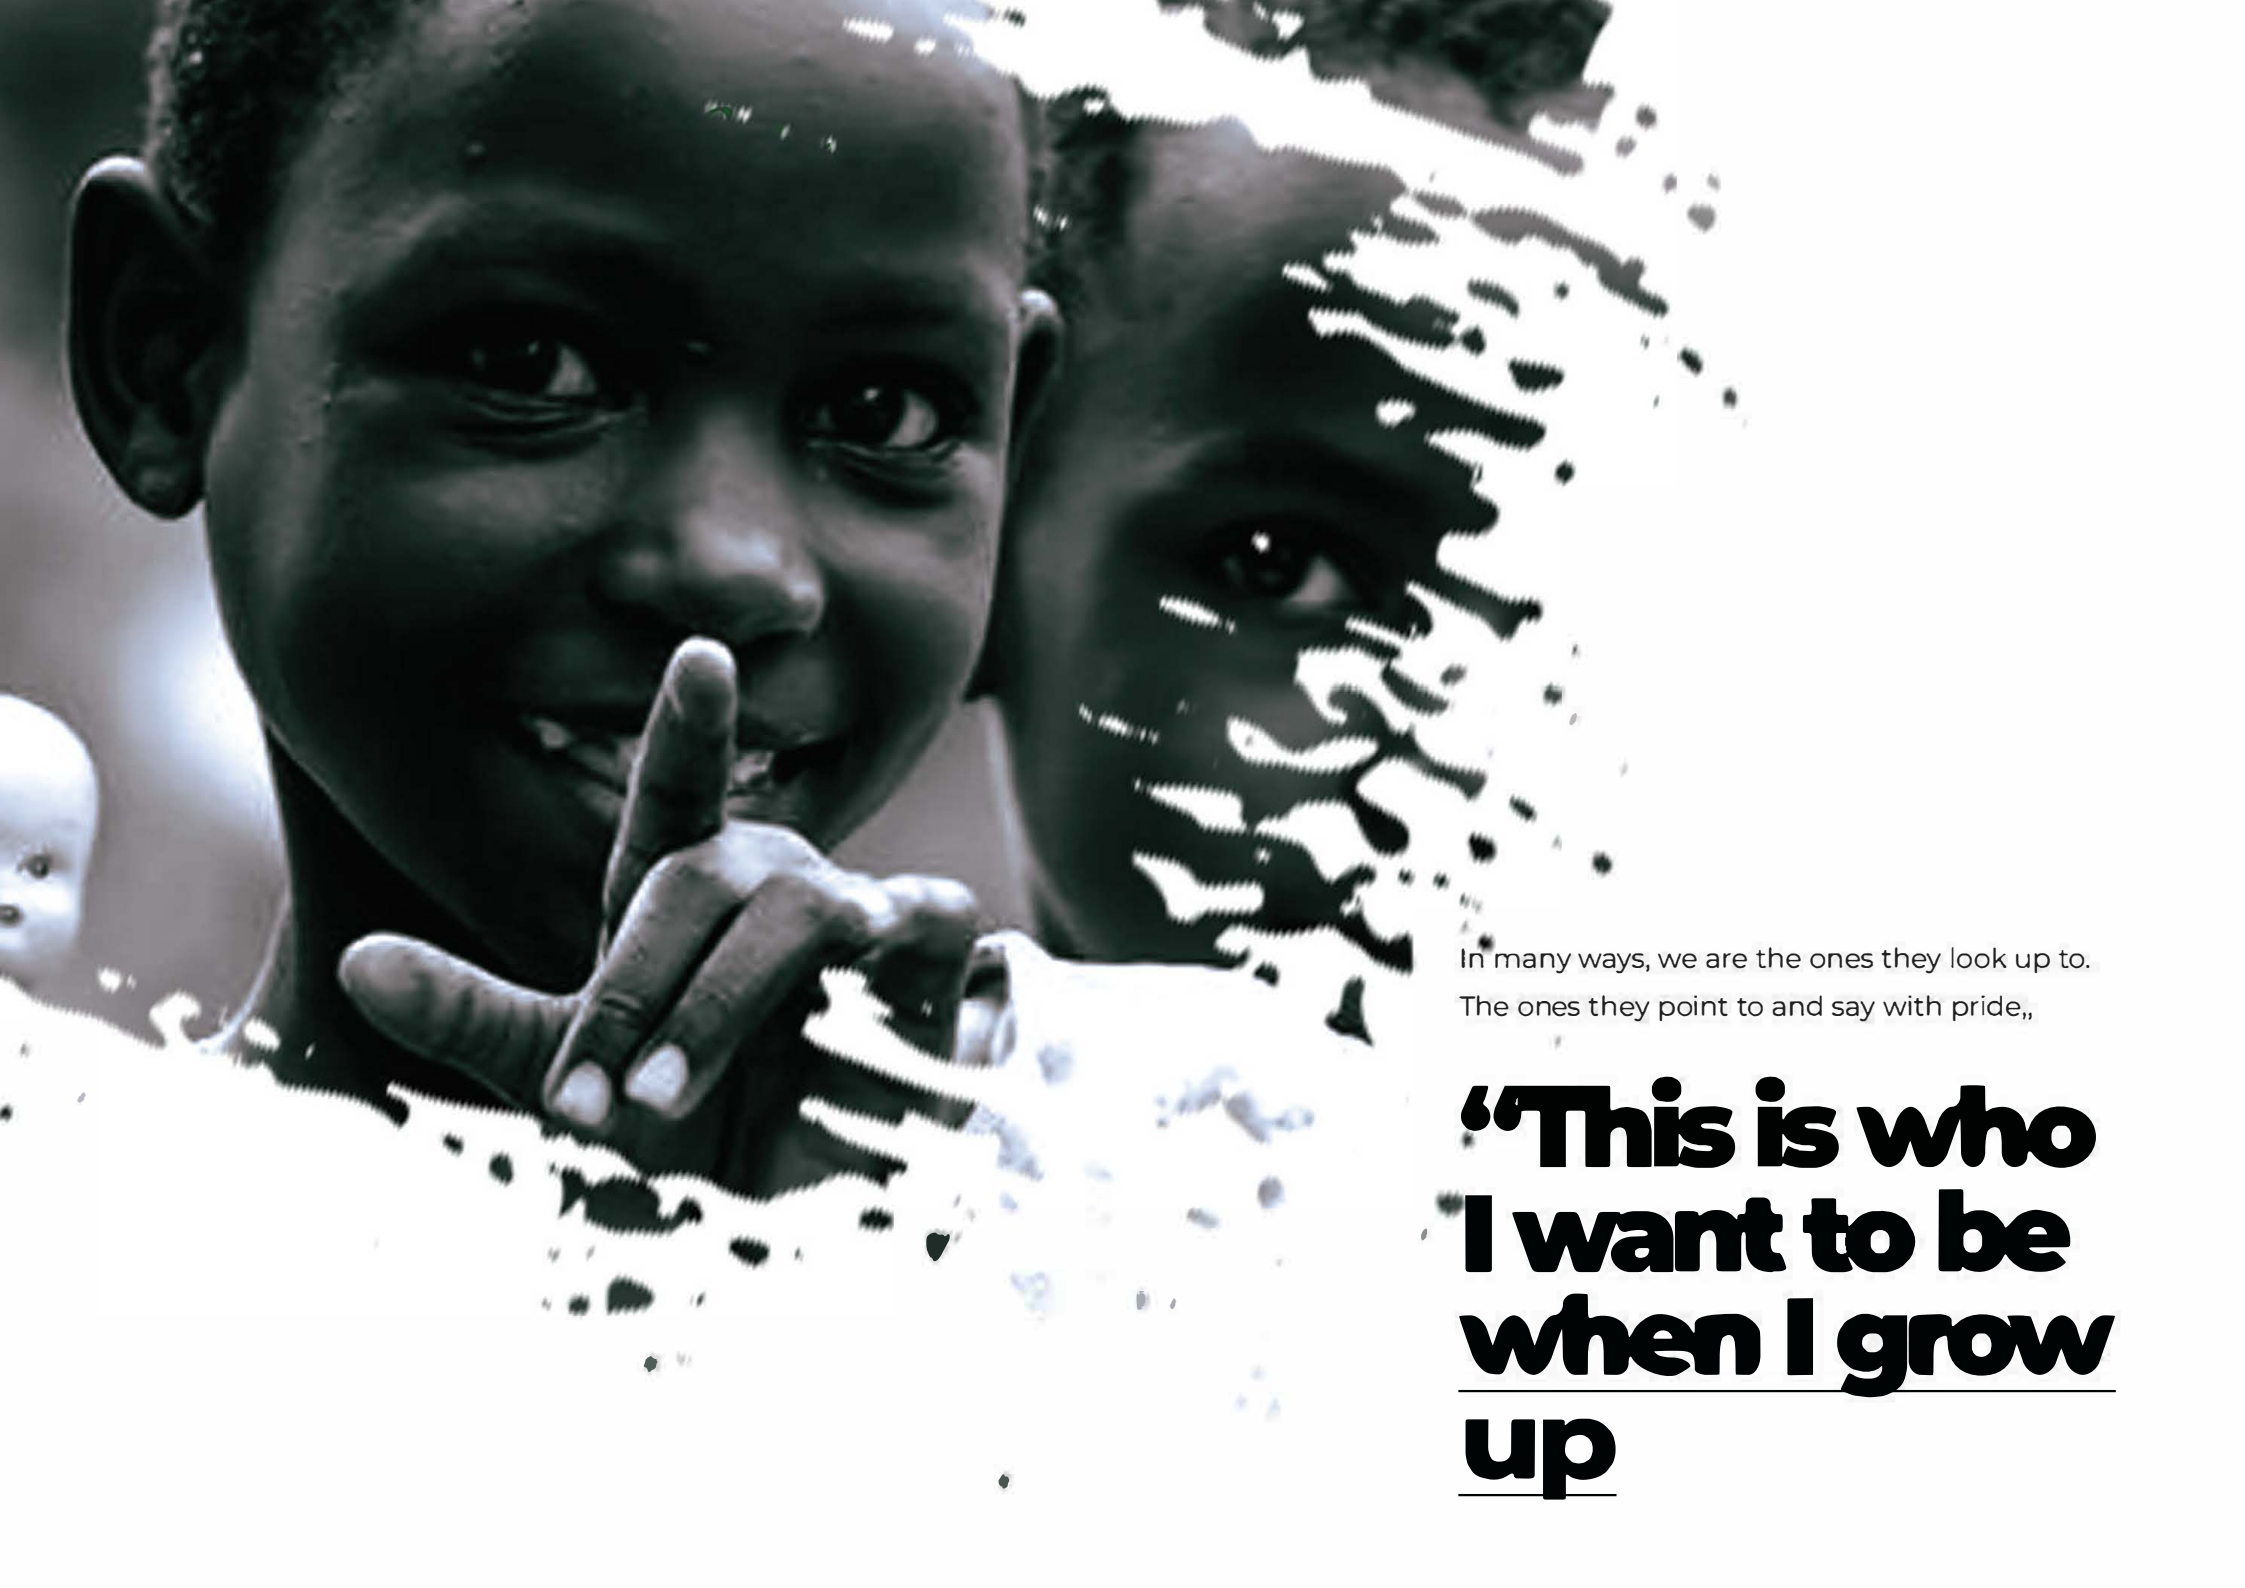

We see the happy faces of children who can change the world. **Innocent and intuitive, always seeking knowledge.**

We were once these children, seeking knowledge, always asking questions. **Always ready to learn.**

Without asking questions, we wouldn't grow. We wouldn't develop. **We would stay children.**

In many ways, we are the ones they look up to.
The ones they point to and say with pride,,

**“This is who
I want to be
when I grow
up**

*Our Education
has helped us
answer most of
the questions we
had as children.*

What happens when we FAIL TO ACT NOW?

What happens when we forget how important learning is to the child?

Well, Then the child never learns. Ultimately, the journey for that child is made a lot more difficult.

Bad uniforms plays on their **self esteem, their confidence**. The environment is not conducive for learning. We, who had good education and conducive learning environments can attest to the benefits

The structural dilapidation affects the mental wellness of the children subjected to the frustrations of learning in this situation. They grow with a mental picture that is tainted. Coupled with lack of proper care, their self-esteem/confidence is gradually destroyed. The quality of humans they become is affected negatively.

This is our finest hour, to ACT and dare to make an impact

Can we become the change?

The result of neglect is this.

The future of our children rests on their education. Our future rests on their education. But as we get older, we get busy with our careers and then forget the future we once were as children.

 The Messenger of Hope International

This is why we
started MOHIF.
**To Create an
environment
that fosters hope
and engenders
transformation
one child at a
time**

One of the Core objectives of MOHIF
To transform lives and living.

The Messenger of Hope International Foundation
is a non-governmental organization that aims to
make a positive impact and to transform lives.

The Messenger of Hope International

We are painting a new picture.

With our group of volunteers,
and your **generous donations**,
we are able to make lasting
transformations.

Nigeria has 11 million of out-of-school children, highest in world – World Bank
In Nigeria, about 10.5 million children are not in school even though primary education is officially free and compulsory.

About 18.5 million children, the majority of

Last year we held our
first ever **Back to School**
project at Durumi.

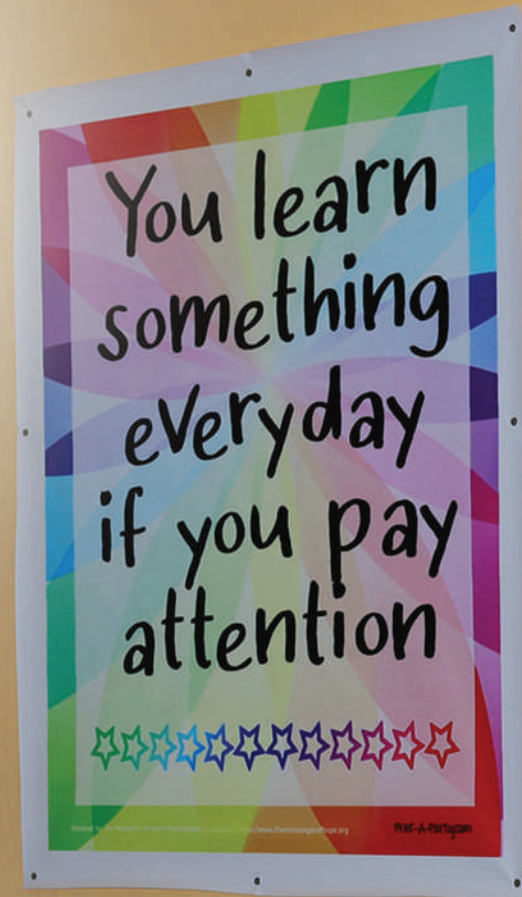

whom are girls, do not have access to education in Nigeria, a figure up sharply compared with 2021, the U.N children's fund says.

Last year, UNICEF estimated that 10.5 million children were out of school in Africa's most populous country.

"Currently in Nigeria, there are 18.5 million out-of-school children, 60% of whom are girls," **Rahama Farah**,

Our goal is to reduce the number of out of school children and provide a hope for people who deserve a future.

Sites

3+
Core Programs
in One Area
Council

Our Back to School project was a success. We were able to renovate a class block and share new educational items.

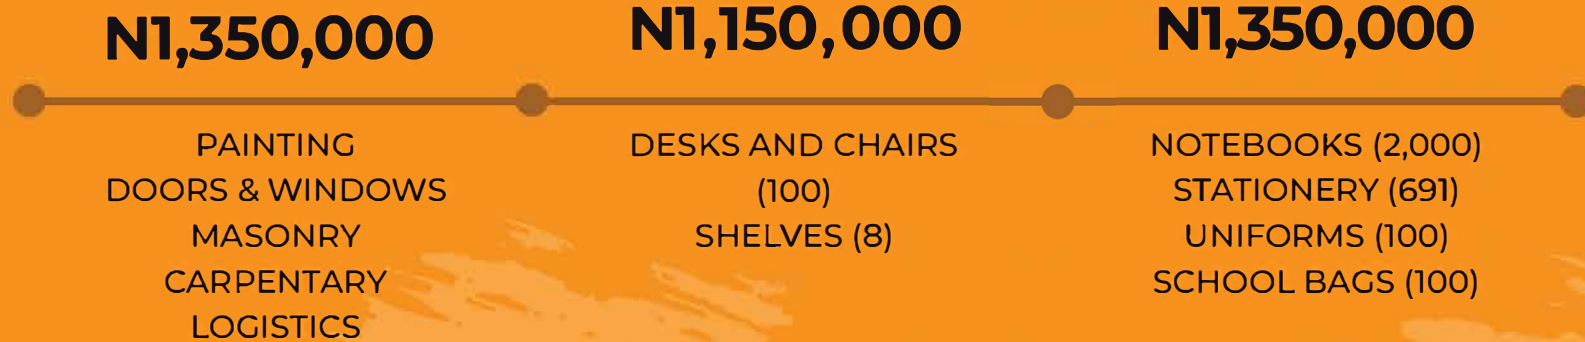

This year, we plan to renovate a block of 4 classrooms for the children, to create an enabling environment for them to learn.

What's next?

This year's **Back to School** project would be a *bigger commitment* to developing the children's learning area and as such, the stakes are higher than ever.

This year, we would be needing a total of **N3,850,000** to complete a block of 4 classrooms.

Our goal is to complete the project by the end of the year.

TOTAL
N3,850,000

2022 PROJECTS

AUGUST-SEPTEMBER 2022

EDUCATION

Walk/Run for Education
Back to School Project
(Renovation, School Supply
Distribution)
Community Library Project
Village Coder Project
Launch

DECEMBER 2022

CHRISTMAS DREAM PROJECT

Putting smiles on the faces
of at least 300 families by
donating clothes, food and
other items this Christmas

WALK for EDUCATION – Walk to Work Education

This will serve to create awareness on the plight of Pupils in Local Education Authority (LEA) Schools and the need for an urgent intervention to rescue Education.

We are seeking to partner with organizations that already have a structure that can be leveraged for mutual benefits.

Volunteers will be sourced and recruited to work

NOVEMBER 2022

HEALTH OUTREACH

Health Talk and Sanitary
Pad Distribution (Pad my
Period (PMP))

Community Health
Outreach to reach at least
500 people in a rural
community in Abuja

The work continues.

Let's make this year our best yet.
